WORK EXPERIENCE

- **Plural Informatica**, June-Sept 2021. 3-month work apprenticeship in office of IT company based in Barcelona. Assistant to senior full stack web developer in:
 - Optimizing interfaces of websites using CSS and other libraries
 - Debugging interactivity issues across multiple website
- **KFC Donegall Place** Belfast, March-July 2024. Part time/Full time kitchen team member position. Developed strong teamwork and communication abilities.
- **Muskoka Woods**, June-Sep 2023. Full-time qualified ropes instructor at a summer resort for kids in Ontario, Canada.

PROJECTS *(see portfolio site)*

1. **Digital Newspaper App** = A digital newspaper website that uses Vue.js for the frontend and Firebase Realtime Database for the backend. The app allows for the fetching, creation and deletion of articles via API calls and Vuex.
 - The bootstrap library was used for the styling of the app
 - Git version control system was used for the development of the project
2. **Quizzle App** = A quiz app built with Vue.js that fetches data from an open trivia database using Axios Javascript library.
 - CSS Preprocessor Sass was used for the styling of the app
3. **Currency Converter** = Web app for exchanging any currency built with Javascript that uses live currency exchange rates.
 - Great for reinforcing knowledge of vanilla JS without needing additional frameworks

SKILLS

- **Web Development:** JavaScript, Vue.js, HTML, CSS, Sass, Bootstrap, Git, Figma, Axios
- **Languages:** fluent in English, Spanish and Catalan
